The figure contains four charts:

- Video portal usage Last 7 Days:** A bar chart showing usage over time. The y-axis ranges from 0 to 25. The x-axis shows dates from 07 Apr 2016 to 15 Apr 2016. The legend includes: Enabled video (blue), Downloaded video (orange), Hosted video (green), Uploaded video (red), and Viewed video (purple).
- Top 5 viewed videos:** A bar chart showing the top 5 viewed videos. The y-axis ranges from 0.0 to 2.5. The legend includes: Marketing (blue), Opportunity report (orange), Webinars (green), Translation report (red), Your Privacy is Our Priority (purple), International Business Growth (brown), and Forecast report (pink).
- Top 5 channels viewed:** A pie chart showing the distribution of views across 5 channels. The legend includes: executive-center (blue, 35%), information-technology (orange, 28%), marketing (green, 15%), sales (red, 13%), and products (purple, 9%).
- Video Portal Activities:** A line chart showing activities over time. The y-axis ranges from 0 to 60. The x-axis shows dates from Apr 12 to Apr 19. The line shows a peak around Apr 13 and Apr 18.

Using this Office 365 auditing tool, you can audit the following components of Office 365.

- Azure ActiveDirectory
- Exchange Online
- SharePoint Online
- OneDrive for Business
- Office 365 Video

Following audit reports are available

Other important features:

- Manage multiple Office 365 tenants from single portal
- Export audit report to HTML/Excel/PDF/CSV
- Customize the generated report columns

Installation Prerequisites:

- .Net Framework v 4.5.2

Installation Steps:

- Download the attached installer and complete the installation
- Once the installation is completed, it will open the configuration page
- Click "Add" button to add your tenant
- This tool requires an Azure AD application to collect the audit logs from Office 365. Enter the Azure AD application details and click "Save".
- Once the application is added and connected, you can start generating the audit reports.
